

Missouri Propane Gas Association

Fall 2018 District Meetings

The Fall 2018 MPG District Safety Meetings will offer something for almost everyone in your company. We'll have topics this year on both safety and marketing that will apply to the growth and profitability of every marketer in 2019.

Regulator Overview: Often when there is a problem with a propane piping system, it turns out that the regulator is involved. Mike Maupin will review some of the more common problems and fixes with the devices that make up the heart of a safe system.

Beyond RIN: It isn't enough just to maintain your Requalification Identification Number (RIN) to fill cylinders. Beyond the paperwork and compliance is a responsibility to ensure that the cylinder is safe and that your customer and company are protected from accident or defect. We'll review how to obtain a current RIN from PHMSA and discuss case studies involving past cylinder accidents and how they could have been prevented.

Goodbye FPR, hello Google: For most of the past 20 years, PERC has operated the Find A Propane Retailer (FPR) on-line tool to allow customers to find a propane supplier nearby. Today, FPR is no more and marketers will need to learn how to use Google to increase visibility during online searches. Bring your marketing staff and take home the handouts and web links that will help your company be listed on the nation's most popular search platform.

Welcome Home campaign: In August, MOPERC kicks off its statewide "Welcome Home" campaign designed to promote the benefit of residential applications. Designed to highlight the freedom, security and affordability of a propane lifestyle, Welcome Home gives you the tools to add gallons through existing customers or new accounts.

GRAND PRIZE BONUS: At the end of the District Meetings, we'll draw from all the names on the sign-up sheets to award a grand door prize—a 39-inch LED Roku TV.

The District Safety Meetings kick off on September 10 in Mountain Grove at the Club 60 Steakhouse, and continue throughout the state at familiar locations, ending September 20 in Eugene. In addition to the program items listed above, you will visit with your peers, enjoy a group meal and have a chance to win door prizes. Everyone from your location is invited.

To ensure that we have enough food and space for everyone, registration is required. Attendees will fill out and return a registration form to reserve a meal and space at the meeting; forms which are available at www.MissouriPropane.com and will be mailed and emailed several times prior to the meetings. Spouses and guests are welcome. No-show registrations may be billed for the meal if we do not meet the guaranteed minimums. Attendees who do not register one week in advance are not guaranteed a meal.

Once you register, we'll make a name tag and reserve a space for you at the location you choose. We'll see you there!

Check the schedule on the back of this form for the location near you.

MPGA Fall District Safety Meeting Registration Form
